## Professional Summary

Aspiring backend developer with hands-on experience in Django and Django REST Framework, seeking to contribute to dynamic development teams. Proficient in building robust APIs and scalable web applications, with a strong foundation in Python and relational databases. Eager to apply problem-solving skills and technical expertise to deliver efficient backend solutions in a collaborative environment.

## Education

- Bachelor's in Computer Science (3.2/4)** Nov 2021 - May 2025  
University of Sargodha  
**intermediate in Computer Science** Mar 2019 - May 2021  
Superior College Sillanwali

## Experience

### Backend Developer – VirtuComm (Final Year Project)

Jan 2025 – May 2025

Developed backend for a virtual communication app using Django and DRF. Designed APIs, implemented auth, and worked in a team using Git and Agile practices.

### Personal Projects

Ongoing

Built REST APIs with Django, explored JWT and OAuth2 login, and practiced clean, modular code.

### Self-Learning

2024 – Present

Learning backend development with Django and DRF through projects and structured practice.

## Projects

- VirtuComm** May 2024 - May 2025  
**Backend Developer**  
Collaborated on a full-stack academic project aimed at enhancing virtual communication experiences. Focused on designing and developing backend components, integrating APIs, and ensuring smooth data flow and system reliability. Contributed to code structure, scalability, and efficient handling of client-server interactions.
